Check NSNY website for a schedule of courses, both compulsory and electives:

For more information on our courses or to register, please visit our website at www.yukonsafety.com or call 867.633.6673 or email info@yukonsafety.com

Important to note: all certification courses are offered through NSNY except First Aid and CSTS

- 1. Standard First aid is not currently offered by NSNY-**please include a copy of your valid Red Cross or St. John's Ambulance ticket (2 day course) along with your submission package.
- 2. Construction Safety Training System (CSTS)** is an on-line training course offered through the ACSA website. <https://www.acsa-safety.org/>

Experience Letter Criteria

The participant must have a minimum of 3 years practical construction experience.

Definition of construction field experience:

A construction worker (laborer or skilled construction tradesperson) working directly and actively in a construction field (i.e. residential, commercial, industrial, road building, pipeline construction, mobile equipment operations etc.); or; an individual who is directly and actively responsible for the supervision (i.e. site superintendent) or safety (i.e. site safety coordinator) of the construction worker, whom also works directly and actively in the construction field on a full time basis.

Make certain all components listed are outlined in your experience validation:

- Letter should be on letterhead from the company(s) that you were employed with and signed by management. (if submitting from multiple employers, each employer must write and sign a letter)
- Start date and end date of employment - length of combined construction related and/or Health and Safety (H&S) employment must meet the 3 year's full time.
- Your job title/position
- Your job description- refer to the definition of construction field experience as outlined above and ensure that your job description outlines and covers the information in the definition.

Percentage of time, based on a weekly average, in the field versus in the office. Do you work 100% of your duties in the field? Or; as a supervisor are you 50% in the field and 50% office? If your time is split between field and office, you can only use your field percentage towards your three years' experience time.

Example: 50% field over one year=6 months towards total field experience.

Examples of different ways that you can submit your experience verification:

- Letter(s) from your current or past employer(s) signed by management, which must include
- A copy of your journeyman construction tradesperson(s) certification and upgrade where applicable
- Letter from your construction trade union verifying length of membership term and qualifications in your trade

Application of Training and Experience – (Proficiency level)

Applicant Name:

Company Name:

All documents listed below must be submitted at the **same time** for review and only one applicant per submission.

- LSE Proficiency
- NCSO/HSA
- Recert

Document to be submitted:	Completed? (Y/N)
<p>1. Minutes of a Toolbox/Safety Meeting conducted by you</p> <ul style="list-style-type: none"> <input type="checkbox"/> Conducted by you <input type="checkbox"/> Bears your name and signature 	
<p>2. A completed site inspection form and Corrective Action Plan, which you conducted, or participated in as a member of an inspection team</p> <ul style="list-style-type: none"> <input type="checkbox"/> Identified existing and potential hazards/safety violations <input type="checkbox"/> Determined a corrective action plan to minimize or eliminate the hazards <input type="checkbox"/> Bears your name and signature 	
<p>3. A completed Hazard Assessment and Corrective Action Plan, which you conducted, or participated in as a member of the hazard assessment team</p> <ul style="list-style-type: none"> <input type="checkbox"/> Documents potential hazards associated with a particular task (i.e.: operating a backhoe) or entire jobsite <input type="checkbox"/> The hazards have been prioritized according to risk <input type="checkbox"/> Control measures/corrective action plan has been documented <input type="checkbox"/> Bears your name and signature

CODE OF ETHICS
For
NATIONAL CONSTRUCTION SAFETY OFFICERS (NCSO™)
&
HEALTH and SAFETY ADMINISTRATORS (HSA)

I agree to the following ethical standards:

1. Maintain and provide sound judgement in pursuance of duties.
2. Ensure that private information is safeguarded and kept confidential.
3. Ensure that decisions are based on objective findings and free of bias.
4. Practice the highest standards of truthfulness, honesty, and integrity.
5. Promote and uphold the dignity of the safety profession.
6. Act in a professional manner to maintain the honour and prestige of the NCSO/HSA designation.
7. Avoid conflicts of interest and declare if one should arise.
8. Support the efforts of other Construction Safety specialists.
9. Maintain quality standards through ongoing professional development.

I, _____ have read and understand this Code of Ethics as stated above. I agree with the above requirements and will strive to adhere to these rules. As construction safety specialist, I also realize that any breach of this Code of Ethics may result in a formal review and subsequent suspension of my construction safety certification.
